## 1. Main measures taken by government (max. 2 lines of explanation for each measure)

- CONFINEMENT** : Until March 31. Compulsory isolation and prohibition of movement. Exempted persons affected to activities/services considered essential.
- NON ESSENTIAL BUSINESS' CLOSURE** :Provisionally until March 31. Allowed: food supply, personal hygiene articles, medicines, medical equipment & instruments; provision of essential services; gas & oil industry and others as per detail.
- BORDERS' CLOSURE** :Until March 31. International cargo transportation in all its forms allowed (import/export).
- OTHERS** : No international and/or cabotage flights.No internal long haul transportation. Cargo transportation of critical supplies exempted.
- NONE** :

## 2. Port's situation (max. 10 lines)

Maritime transport and import/export port activities related to essential businesses developing but with difficulty to date. People involved: pilots stevedores, agents, crews, surveyors, customs, etc., ... authorized limited circulation adopting sanitary protective measures. Eventual delays and/or other complications may not be ruled out as preventive measures are adopted. e.g. ship owners required to limit number of people that can be onboard and thus some surveys are being suspended. Workers' Unions are demanding that control on foreign flag vessels be tightened. All Argentinean ports must have a contingency plan COVID-19 in place and ship owners required to take preventive measures. Contrary to the general rule adopted by government pilots are refusing to service ships arriving from Chile and Brazil if first a 14 day quarantine with vessels anchored on the roads is not respected. If decision maintained container traffic to Buenos Aires and Zarate , amongst others, could be affected. Change of crews prohibited with exceptions.

## 3. Inland transports' situation (max. 10 lines)

Inland transportation of cargoes related to essential businesses developing normally so far but complications should be expected. Workers' Unions are demanding that further preventive measures be adopted, thus delays and/or other complications may not be ruled out. Preventive controls on the roads by police carried out could eventually have impact on transport too. Some local authorities, going against the general rules set out by the Federal Government, imposing restrictions to truck circulation which may affect the steady flow of essential goods and import/export operations.

## 4. Airports' situation (max 5 lines)

Airport activities related to cargoes for essential businesses are proceeding normally to date. Suspension of international passenger flights (only repatriation flights allowed) implies the impossibility of entry of cargoes usually transported on said flights. Cargo planes continue operating normally.

### 7. Specific information (max 5 lines)

In order to accompany the above stated situation and thus prevent the spread of the virus, we are working remotely and with staff on duty until 13<sup>th</sup> April 2020, while continuing to assist our customers, consignees and/or Insurers in the usual and customary way through our private email addresses as well as through our private mobile cells. As the development of COVID-19 is very dynamic, we are going to be monitoring our operational practices day by day.
