## 1. Main measures taken by government (max. 2 lines of explanation for each measure)

- CONFINEMENT** : No but restrictions are in place to avoid group situations, to keep distance of 1.5 meters, to meet a max of 3 persons in one room, except for residents of the same residence, etc.
- NON ESSENTIAL BUSINESS' CLOSURE** :Yes, but mainly related to business with close client contact, such as hairdressers. Transport industry is still considered as essential business. Surveyors are still allowed to carry out surveys on board of vessels, in the ports, at logistic premises etc. But they should act with care, keep distance, etc.
- BORDERS' CLOSURE** :The border with Belgium is only open for trucks/freight in order to keep the industry running. The border with Germany is still open for all traffic.
- OTHERS** :
- NONE** :

## 2. Port's situation (max. 10 lines)

The ports are still open. Surveyors are still allowed to carry out surveys on board of vessels, in the ports, at logistic premises etc. but they have to follow the prescribed, general precautions (refrain from survey when having minor health problems, keep distance, washing hands, no handshakes, etc).

## 3. Inland transports' situation (max. 10 lines)

No restrictions. Surveys can still be carried out, see above under Port's situation.

## 4. Airports' situation (max 5 lines)

## 1. Main measures taken by government (max. 2 lines of explanation for each measure)

- CONFINEMENT** : Stay at home restriction in force ; serious limitation in public transport ; kids and youth under 18 may stay outside only with parent ; gathering in more than 2 is not allowed.
- NON ESSENTIAL BUSINESS' CLOSURE** : Yes, all restaurants, bars, hotels and guest houses, leisure facilities, barber shops etc. closed.
- BORDERS' CLOSURE** : Poland has closed its borders until mid-April only transport of goods is allowed.
- OTHERS** : Self-isolation for 14 days if you are suspected to be in contact with positively tested person (i.e. in workplace) or just crossed the border. Hotels are only available to persons who use accommodation services as part of their duties

## 2. Port's situation (max. 10 lines)

Currently, the four main Polish ports are operating normally. The vessels call in accordance with contracts and notification. In the Gdansk port, transhipments were at a similar level as a year ago. Container ships call as planned to the DCT Gdansk terminal. Port forecasts for April look rather pessimistic, while in May they are a great unknown. At the same time, the number of stored cargo in container terminals is growing. Closed warehouses and stores are clogged. Additionally, custom clearance costs slightly increased due to the devaluation of the Zloty (Polish currency vs Euro and US \$).

## 3. Inland transports' situation (max. 10 lines)

Mainly food transportation. Due to limitation in activity of several warehouses / hubs / plants it is limited. However, cargo transports are allowed to cross borders and drivers are free to travel with no fortnight lockdown obligation.

## 4. Airports' situation (max 5 lines)

Poland has notified the suspension of all international passenger flights to Poland. Excluded are chartered flights to repatriate Polish nationals, medical, search and rescue, humanitarian, state missions, public order, official mission flights; chartered flights operated by foreign countries to repatriate their nationals.

## 5. Any import cargo treatment/decontamination (max 5 lines)

- NO
- YES

## 6. Possibilities of surveys

- NO
- YES

## 7. Specific information (max 5 lines)

There are serious limitations in access to the warehouses. It is result of internal restrictions of management based on government indications. In this situation surveys are postponed as very often surveyors are not allowed to enter the premises. In workplaces workers may not work together if distance between them is less than 1,5 m. Prior surveys companies inform about possible temperature screening and information about the surveyors recent travels may be requested.

Avec ses partenaires, Tanger Med a mis en place un plan de continuité pour assurer les besoins et les opérations portuaires, 7j/7 et 24H/24.

Le fonctionnement du **port de Casablanca** n'a pas été impacté par les retombés du Covid-19, notamment pour les produits de première nécessité. Il a même enregistré une hausse du volume des marchandises de 3% au 21 mars 2020 par rapport à la même période de l'année dernière.

Les activités du **port de Mohammedia** restent concentrées sur le transit des produits énergétiques, qui revêtent une importance capitale pour le tissu économique national.

Le **port d'Agadir** a lancé le 21 mars une nouvelle ligne maritime avec Port-Vendres (Sud de la France), dédiée aux conteneurs frigorifiques et exploitée par CMA CGM à raison d'une escale par semaine.

Le **port de Jorf Lasfar** poursuit également ses activités, en termes d'accueil des navires et de réception des marchandises, notamment pour les produits de première nécessité (céréales, aliments de bétail, hydrocarbures ...) et les marchandises nécessaires pour le fonctionnement du complexe industriel de l'OCP, la centrale thermique et les autres unités industrielles. Phone : +94.777.713.111

## 1. Main measures taken by government (max. 2 lines of explanation for each measure)

- CONFINEMENT** : From 20/03/2020 a countrywide curfew is in place. Six of the Twenty-two Districts (Inclusive of Colombo where our office and the Port of Colombo is situated) have a 24 hours curfew with absolutely no movement permitted. The other districts have 6 hours breaks, once in 3 or 4 days. The present curfew announcement is effective still 09/04/2020
- NON ESSENTIAL BUSINESS' CLOSURE** : Essential services are permitted to function. All other Offices have to work from home.
- BORDERS' CLOSURE** : No international flights to and from Sri Lanka is permitted.
- OTHERS** : The Government has suspended the Import of all non essential items other than Pharmaceuticals and Fuel.

## 2. Port's situation (max. 10 lines)

Port and Shipping are classified as essential services and continues to be functional.

Vessels are allowed to enter the Port on submission of a Health Declaration Form by the Master which should contain the health status of crew as well as the details of Ports visited within the last 14 days.

No delays in berthing and discharge/Loading of cargo.

Port was permitting the clearance of essential items without restriction and from 03rd of April (Friday) has allowed the clearance of all cargo. This has been in order to ease the congestion as well as to gear towards normalcy. However there are delays and obstacles to the smooth operations at this stage due to the following :

- Restrictions of movement due to curfew in force. Permits can be obtained for clearance of cargo but some workers may be faced with travel restrictions due to closure of public transport.
- Delays due to strict enforcement of social distancing. State has introduced on line approval for clearance of cargo, minimize contact.
- Limited availability of staff at Port and Customs.

Therefore as of now there is no restriction or suspension of clearance but delays due to practical reasons consequent to the preventive measures in place for the spread of COVID 19.

## 3. Inland transports' situation (max. 10 lines)

Transport is permitted on obtaining curfew permits. Generally limited to essential goods.

## 4. Airports' situation (max 5 lines)

No flights in to or out of the Country until further notice.

## 5. Any import cargo treatment/decontamination (max 5 lines)

- NO**

## 6. Possibilities of surveys

- NO** Sri Lanka Ports Authority has banned all surveyors from attending on board Vessels until further notice.

If and when requests for survey are received the following procedures are been adopted:

- Attempts are being/will be made to obtain curfew passes to attend to inspections. As surveys are not clearly classified as an essential service, the issuing of permits in this regard is not certain.
- When an inspection is not possible, Consignees would be instructed to take photographs, under the Surveyor's advice, and carry-out loss assessment and segregation of loss/damage , pending future inspection if required.
- Provide loss control advice to Consignee.

### 7. Specific information (max 5 lines)

The balance of Covid-19 cases released by the Ministry of Health on Tuesday (7) points out: 667 deaths, 13.717 confirmed cases and 4.9% is the lethality rate.

*"In previous updates, we reported the impacts of Covid-19 in the Brazilian North and Northeast Ports of Brazil. On the occasion, we highlighted that the cancellation of flights was beginning to impact on pilotage services in the North region, mainly in Santana, Santarém and Macapá.*

*However, the situation has intensified due to restrictions in the Northern Brazilian flight routes caused by the measures against COVID-19. Pilotage companies, in order to guarantee service in the states of Pará, Amapá and Amazonas, have announced that*

*they will transport pilots through chartered flights (air taxis), when necessary, since commercial flights are being cancelled by the major airlines operating in the area, reducing and extinguishing the supply of scheduled flights. The main impact will be at the Port of Santarém.*

*Santana (AP) and Itacoatiara (AM) are in a better situation, with a good number of pilots available, because they have pilot stations,*

*as they are the commencement and completion of the river maneuvers in the Amazon region.*

*However, some terminals must be directly affected, such as Juruti (PA), Trombetas (PA), Munguba (PA) and more importantly, Santarém (PA), requiring the use of charter flights to maintain regular services.*

*This issue will directly impact the grain and fertilizer market that use the logistics of the Northern Arc, due to probable delays on the*

*port of Santarém, the third among the ports of greatest growth in Brazil in terms of tonnage of cargo handled in 2019 .*

*The pilot company from Pilotage Zone 1 (UNIPILLOT) has formally advised the new rules for the time being:*

*• In case there are no pilots available in Fazendinha (which is the entrance to the Amazon Port Region) for the maneuver towards the loading berth, the Shipping Agency requesting the service will have to pay for the chartered flight for the 2 pilots (please note the tariffs below);*

*• After bringing the vessel to the inner anchorage/ berth, the 2 pilots involved on the maneuver will wait in the city for 36 hours in order to attend any immediate demands, such as shifting vessels to berth, unberthing to inner anchorage, or even bringing another*

*vessel to Fazendinha to exit the Amazon Region;*

*• After the 36 hours are completed, if they cannot board a vessel for sailing from that city/ port, these 2 pilots will be relocated to*

*another maneuver by chartered flight, paid by the party requesting the other maneuver;*

*• When the vessel operation is completed, if there are pilots available, they will board the vessel without extra costs. If not, there will be extra costs again to bring other 2 pilots for sailing procedures to the city.*

*Pilotage information is that when the use of chartered flights is necessary, the costs will be relayed to the Owners/Charterers of the*

*vessels. In addition, the cost estimate was communicated so that the Owners/Charterers can carry out the provisioning of costs:*

#### **Flight prices:**

*<https://mailchi.mp/promare/covid-19-impact-in-the-ports-of-the-north-of-brazil-updates?e=2e3869d7462/2>*

*01 - Belém/Macapá/Belém | Time of Flight: 00:50 | Cost: R\$ 13.318,00*

*02 - Belém/Santarém/Belém | Time of Flight: 01:45 | Cost: R\$ 26.875,15*

*03 - Macapá/Santarém/Macapá | Time of Flight: 01:15 | Cost: R\$ 18.747,49*

*04 - Belém/Manaus/Belém | Time of Flight: 03:15 | Cost: R\$ 49.140,00*

*Due to all this situation, the schedule of maneuvers of pilots in the North region, mainly in Santarém (at the CDP and Cargill terminals) is expected to suffer major delays.*

## 1. Main measures taken by government (max. 2 lines of explanation for each measure)

- CONFINEMENT** : Several states have issued fairly tight restrictions on economic activity and people movement. However, all of them allow for continuation of essential economic activity which includes all aspects of the global supply chain.
- NON ESSENTIAL BUSINESS' CLOSURE** : See above. Even in states with most restrictions on people's movement and gatherings, businesses related to manufacturing and supply chain (transportation, ports, airports, logistics) are allowed to continue operations.
- BORDERS' CLOSURE** : The US has closed both the US-Canada and US-Mexico borders to all non-essential travel.
- OTHERS** :
- NONE** :

## 2. Port's situation (max. 10 lines)

Ports are considered essential and remain open. There have been intermittent closures of terminals after some employees' testing positive for Covid-19 (see Houston) and also due to lack of volume (see Miami), but nothing permanent.

## 3. Inland transports' situation (max. 10 lines)

Transportation of goods is considered essential.

## 4. Airports' situation (max 5 lines)

Airports fall into the essential category in relation to transportation of goods.

## 5. Any import cargo treatment/decontamination (max 5 lines)

- NO
- YES

## 6. Possibilities of surveys

- NO
- YES

## 7. Specific information (max 5 lines)

While in-person surveys are not forbidden, increasing number of facilities are limiting outside visitors. We are exploring alternative measures to complete our surveys including the use of video technology whereby one of our professional surveyors will direct staff at a location remotely while filming and photographing.
