Inchcape Port Updates on COVID-19

Kuwaiti authorities will permit vaccinated non-citizen adults to enter the country for non-essential travel beginning August 1. The measure applies to those who have received two doses of the AstraZeneca, Moderna, or Pfizer-BioNTech vaccines or one dose of the Johnson and Johnson vaccine. In addition, travelers must present a negative PCR test result taken less than 72 hours before arrival and quarantine for seven days upon arrival. During the quarantine period, travelers must undergo another PCR test and test negative to move freely.

Amid a decline in COVID-19 infections, Kuwait cautiously entered the fifth phase of a gradual return to normal life, with various sectors returning to full capacity. The airport resumed operations at full capacity. Worshippers in mosques are now praying without distancing, while the requirement to wear masks in open areas has been lifted. However, wearing of masks and maintain social distancing is still in force in closed places such as shopping malls, restaurants and cafes.

The Cabinet had also asked the interior ministry and the manpower authority to start issuing all types of visas to people vaccinated with approved vaccines (Pfizer-BioNTech, Oxford-AstraZeneca, Moderna and Johnson & Johnson)
