International COVID-19 Overview

From CESAM's Average Agents

Dear all,

In this current context linked to COVID-19, our first thoughts go to our Networks, Average Agents, recommended by our CESAM Group. They're facing new challenges everyday as countries try to cope with the COVID-19 pandemic.

CESAM | International Department
Networks Unit
Mathilde DOCQUIERT

We would like to warmly thank our Average Agents for this precious collaboration. The following sheets are directly completed by them, without modification of CESAM.

If you have any questions, feel free to contact them.

7. Specific information (max 5 lines)

Since middle of December 2021, number of covid infections has been decreasing every week. Vaccination is performed on daily basis – now over 90% of the population has been vaccinated at least by one shot and over 80% of the population has finished second shot. The population of 60+ has been vaccinated with third shot. The government also started to vaccinate the youth 12+ and it is also of the opinion, that children 5+ could be vaccinated as well – first shots has already been given.

4. Airports' situation (max 5 lines)

As part of the reopening of the Ivorian air borders and the resumption of domestic and international flights, the Minister of Transport informs the airport community, travellers and all air transport users of the implementation of a new traveller declaration system for all flights.

To this effect, travellers departing from, arriving in and transiting through Côte d'Ivoire will henceforth be subject, in addition to the sanitary measures linked to the COVID-19, to the completion of an Air Travel Declaration form (DDVA). This form is available online at

<https://deplacement-aerien.gouv.ci>

The Minister of Transport insists on the compulsory nature of this document which is subordinated to the embarkation and disembarkation of the aircraft. The Minister of Transport invites all prospective travellers to strictly comply with these provisions, in order to allow safe air travel during this period of health crisis.

COTE D'IVOIRE is currently experiencing an outbreak of COVID-19. The authorities had noted a surprising increase in flu cases in recent weeks. But the INSTITUT PASTEUR has finally assured that it is not flu.

According to Ms. DOSSO Mireille, Director General of the INSTITUT PASTEUR, 95% of the flu cases are COVID.

The only way to find out is to take the test and this will allow you to protect yourself from being infected by another strain and also to avoid contaminating those around you.

COTE D'IVOIRE has an average of 728 new infections per day, or 58% of the peak number of infections.

There have been 77,857 cases of infection, 70,829 people cured and 742 deaths linked to COVID-19 recorded in the country since the beginning of the epidemic.

From 1 March 2021 to January 10th, 2022, 7,758 962 doses of vaccine were administered.

Operating normally, with restrictive measures (mandatory use of masks and social distance). Outbreaks of COVID-19 on cruise vessels caused the cancellation of cruises and temporary suspension of operations after 800+ cases of Covid-19 having being diagnosed on board of the five cruise ships sailing along the Brazilian coast in January, but Ministry of Health has announced the authorization of cruise operations in Brazil from March 7th. The decision has taken into account the current scenario of the Covid-19 pandemic. Cruise companies will need to guarantee medical care to passengers and crew with suspected or confirmed cases of the coronavirus. In addition, quarantines should be enforced in case of outbreak. The authorization can be revoked at any time depending on the national and international epidemiological scenario.

Today's register: 79 infections, one deceased, 1,329 active cases of which 13 are admitted to CTI

It is the second day in a row that fewer than 100 new infections of the disease are verified. The percentage of positive results was 1.24% and the day before it had been 1.73%.

The Harvard University Index, which calculates the incidence of the disease per 100,000 inhabitants based on the average number of cases in the last seven days, today fell 0.21 to 3.55. The departments of Artigas, Rivera, Tacuarembó, Durazno, Flores, Florida, and Lavalaja are under the green colour of this indicator. The rest in yellow.

Artigas and Flores are the only departments in which there are no active patients.

In the last month, deaths from covid represented only 1% of the country's total deaths.

77% of the population is vaccinated with 1 dose of vaccine, 72% with a second dose and 25% with a third dose.

Inchcape Port Updates on COVID-19

Kuwaiti authorities will permit vaccinated non-citizen adults to enter the country for non-essential travel beginning August 1. The measure applies to those who have received two doses of the AstraZeneca, Moderna, or Pfizer-BioNTech vaccines or one dose of the Johnson and Johnson vaccine. In addition, travelers must present a negative PCR test result taken less than 72 hours before arrival and quarantine for seven days upon arrival. During the quarantine period, travelers must undergo another PCR test and test negative to move freely.

Amid a decline in COVID-19 infections, Kuwait cautiously entered the fifth phase of a gradual return to normal life, with various sectors returning to full capacity. The airport resumed operations at full capacity. Worshippers in mosques are now praying without distancing, while the requirement to wear masks in open areas has been lifted. However, wearing of masks and maintain social distancing is still in force in closed places such as shopping malls, restaurants and cafes.

The Cabinet had also asked the interior ministry and the manpower authority to start issuing all types of visas to people vaccinated with approved vaccines (Pfizer-BioNTech, Oxford-AstraZeneca, Moderna and Johnson & Johnson)

2. Port's situation (max. 10 lines)

Australia's borders are currently closed and entry to Australia remains strictly controlled. All commercial vessels must now use the Maritime Arrivals Reporting System (MARS) for all vessel pre-arrival reporting.

All vessels entering Australia that have a suspected case of COVID-19 on board will not be allowed to unload goods or disembark travellers until cleared to do so by the human biosecurity officer. Where vessels have a suspected case of COVID-19 on board, a human biosecurity officer will screen for COVID-19, determine the appropriate course of action and issue directions.

3. Inland transports' situation (max. 10 lines)

State borders remain closed from known exposure sites across ACT, NSW, VIC unless exempt and must hold the valid border permit, adhere to mandatory COVID-19 testing and vaccination requirements.

Transport or freight of goods is exempt from border controls on the condition that the person performing the services must meet State exemption requirements; hold and display a border permit, wear a mask, practise social distancing, remain self-quarantined and submit a COVID-19 management plan. COVID-19 testing is required.
