All open to public bussines/sites are closed and free movement of people is limited. Free movement of cargo is unaltered, even though there is priority in essential goods. Link to the Law: <https://www.boe.es/buscar/doc.php?id=BOE-A-2020-3692>

Update as of 04/05/20:

The Spanish government has put in place a deconfinement plan based on "stages" and taking into account the irregular situation of the different provinces in Spain. The plan goes through four stages: stage 0, stage I, stage II and stage III. These consecutive stages ease the confinement measures in any given province depending on whether they meet certain criteria. Any province can go back and forth to the different stages if the situation changes.

Stage 0 (from 4th May / all Spain): opening of small businesses with scheduled appointments (e.g. hairdresser's, bookshops).

Stage I (From 11th May / provinces meeting the criteria): partial opening of businesses with outside areas and limiting occupation to 50% (e.g. restaurants with a terrace)

Stage II (From 25th May / provinces meeting the criteria): opening of businesses but limiting occupation, ensuring distance between clients. (e.g. cinemas)

Stage III (From 8th June / provinces meeting the criteria): General mobility more flexible and opening of businesses, whilst following the safety protocols and recommendations. (distancing, masks, etc.)

1. Main measures taken by government (max. 2 lines of explanation for each measure)

CONFINEMENT : les autorités publiques ont décidé la prolongation de l'état d'urgence sanitaire jusqu'au vendredi 10 juillet 2020 à 18h00. Le projet de loi n°2.20.406, relatif à la prolongation de l'état d'urgence sanitaire dans l'ensemble du territoire national, insiste, en outre, sur l'allègement progressif des mesures de confinement sanitaire, en prenant en considération les différences de la situation épidémiologique entre les régions, préfectures et provinces du Royaume

NON ESSENTIAL BUSINESS' CLOSURE :

BORDERS' CLOSURE :

OTHERS : l'interdiction du déplacement entre les préfectures et les provinces, sauf en cas de nécessité extrême ou dans le cadre des déplacements des personnes travaillant dans les secteurs économiques ouverts outre le transport des marchandises et des produits de base.

2. Port's situation (max. 10 lines)

Les ports marocains poursuivent leurs activités dans le respect absolu des mesures sanitaires imposées par les autorités compétentes.

Dans les ports de commerce gérés par l'ANP, hors Tanger Med, la communauté portuaire continue à offrir ses services aux acteurs du commerce international. Au 31 mars 2020, le mouvement des échanges a fait ressortir une augmentation de 7,3% par rapport à la même période de l'année 2019, et une hausse de 1,4% de l'activité des conteneurs.

Le marasme économique à l'échelle mondiale et l'état d'urgence sanitaire au Maroc n'ont pas affecté l'activité d'import-export de marchandises au niveau de Tanger Med qui continue à recevoir camions et conteneurs contenant des marchandises à destination et en provenance de l'extérieur.

3. Inland transports' situation (max. 10 lines)

4. Airports' situation (max 5 lines)

Le transport de passage est toujours suspendu mais le fret pour les produits de premières nécessités est toujours assuré. L'Office National des Aéroports du Maroc (ONDA) a mis en place un plan de reprise des activités des aéroports du Maroc, pour garantir un accueil sécurisé et rassurant pour les passagers aériens. CIRCULAIRE

Objet : Mesures de protection contre la prolifération du COVID-19

Vu la stratégie adoptée par le gouvernement Mauritanien portant sur des mesures de prévention contre la prolifération du COVID-19 ;

Vu la vitesse de l'augmentation du nombre des pays affectés ;

Vu les besoins de la Mauritanie en ravitaillement en carburant, en produits de première nécessité et autres produits à usage courant ;

L'Autorité portuaire de Nouakchott décide ce qui suit :

1. Seul le Département de Protection des Frontières de la Direction Régionale de la Santé peut décider si un navire sera accepté ou non au Port de Nouakchott selon l'état de santé des membres de l'équipage et de l'historique du voyage du navire.
2. Afin de protéger au maximum le peuple mauritanien, les navires en provenance des pays affectés doivent :
 - (i) Être mis en quarantaine dans la mesure du possible afin de permettre au Département de la Direction Régionale de la Santé de statuer sur l'état sanitaire des membres de l'équipage des navires désirant faire escale au Port de Nouakchott.
 - (ii) Respecter strictement l'envoi au préalable par mail à l'Autorité portuaire des informations médicales concernant la santé des membres de l'équipage, l'historique du voyage du navire et des autres personnes embarquées qui permettront au Département de protection de frontière de la Direction Régionale de la Santé de faire des analyses des risques de contamination.

3. C'est le médecin équipé d'équipements de protection individuelle adéquats qui monte en premier pour des contrôles et évaluation physique des membres de l'équipage. Si aucune suspicion n'est constatée, il autorise le Pilote d'embarquer pour conduire le navire à son Poste.
4. Le pilote doit être obligatoirement équipé d'équipements de protection individuelle (Masque, gants et lunettes de sécurité). La distance de 2 mètres ou plus doit être tout le temps respectée durant les manœuvres.
5. Une fois le navire à quai, limiter dans la mesure du possible le contact avec les membres de l'équipage et respecter strictement la distance minimum de 2 mètres.
6. Le Médecin et le pilote sont tous les deux responsables de la neutralisation ou destruction de leurs équipements de protection individuelle (EPI) usés.
7. A l'approche de la montée à bord du Médecin de frontière et du Pilote, tous les membres de l'équipage du navire doivent être consignés dans leur cabine et ne sont autorisés à sortir dans les coursives qu'avec du masque et gants propres. Le personnel du bord en charge d'accueillir et d'escorter le médecin ou le pilote doit être bien équipé d'équipement de protection individuelle adéquat et se maintenir à une distance de 2 mètres ou plus par rapport au Médecin ou, au Pilote du port.
8. Les membres de l'équipage sont confinés à l'intérieur de la Superstructure durant toute l'escale du navire.
9. Seuls les membres de l'équipage impliqués dans une mission de surveillance de sûreté et des opérations du navire après être équipés des masques, gants et lunette seront autorisés à sortir du château. La distance de sécurité de 2 mètres doit être respectée dans la mesure du possible.
10. Les membres de l'équipage sont interdits de descendre à quai à l'exception du Second Capitaine pour la lecture des tirants d'eau (sécurité).
11. Les experts ne sont pas autorisés à entrer dans le château du navire. Les inspections conjointes avec le bord se font avec des équipements de protection individuelle appropriés (masque, lunettes et gants) uniquement sur le pont ouvert. Les documents seront échangés par mail.
12. Aucun Personnel terre n'est autorisé à entrer en contact avec les membres de l'équipage du navire et à accéder à la superstructure du navire où est confiné l'équipage.
13. L'officier de port, les services administratifs de l'état (Douanes, Gendarmerie, Police), l'Agent Consignataire ne sont plus autorisés de monter à bord.
14. Aucun document ou objet physique n'est autorisé de sortir du navire. Tous les échanges de documents avec le bord se font par mail. Les discussions se font par téléphones ou par radio.

15. Des documents ou objets physiques peuvent être remis à bord par un colis déposé le long du bord ou à la coupée loin de présence du personnel du Bord qui récupèrera le colis plus tard après le départ de l'agent consignataire.
16. Aucun poste de contrôle des visiteurs du bord n'est autorisé près de la coupée pour éviter tout attroupement. L'enregistrement des personnels de la manutention travaillant à bord s'effectue dans un office à terre assuré par l'agent sureté de l'installation portuaire.
17. Le Bord doit limiter le nombre de son personnel impliqué dans les manœuvres et dans la surveillance des opérations du navire. Le port d'équipement de protection individuelle adéquat (Masque neuf, gants neufs, lunettes) est obligatoire pour tout personnel opérant en dehors du château du navire.
18. Une Poubelle spéciale à couvercle fermé est placée près du navire pour recevoir les masques et gants usagés. Les contenus des poubelles seront incinérés immédiatement.
19. Le débarquement de toute sorte d'objets et des déchets est interdit.
20. Les dockers, Grutiers et autres agents impliqués dans les opérations du bord :
 - (i) doivent être sensibilisés et instruits sur le COVID-19, au préalable avant d'être affectés à des travaux de bord.
 - (ii) Doivent éviter de s'approcher du château du navire. Ils doivent rejoindre leur poste de travail éloignés du personnel du Bord, qui à leur tour doit respecter la distance de 2 mètres au minimum.
 - (iii) Éviter les discussions et la distance rapprochée inutile avec le personnel du bord même si ce dernier est bien protégé.
 - (iv) Éviter de toucher la bouche, le nez, le visage avec les mains. Appliquer le code de bonne hygiène avant, durant et à la fin du shift. A la fin du shift emballer soigneusement les vêtements de travail dans un sachet d'emballage. Se laver bien les mains avec du savon avant de rentrer à la maison.
21. Les lamaneurs impliqués dans les manœuvres du navire doivent :
 - (i) être sensibilisés et instruits sur le COVID-19. Dans l'exercice de leur fonction.
 - (ii) être équipés des gants pour manipuler les toulines, aussières et autres accessoires provenant du navire.
 - (iii) Appliquer le code de bonne hygiène à tout moment. Éviter de toucher la bouche, le nez et le visage. A la fin du service, emballer les vêtements de travail dans un sac en plastique. Se laver bien les mains avec du savon et mettre des vêtements propres avant d'entrer dans le dortoir ou de rentrer à la maison.
22. L'Autorité portuaire et les sociétés de manutention, assureront chacune leur responsabilité dans l'approvisionnement en EPI à leur personnel respectif.

23. A la fin de l'escale du navire, un PV sur la gestion de la prévention contre l'introduction du COVID-19 doit être établi par le terminal qui soumettra à l'Autorité portuaire et qui à son tour après visa soumettra à la Direction Régionale de la Santé Publique.
24. Toute infraction aux présentes dispositions sera statuée dans un PV et entraînera l'arrêt des opérations en cours. Une enquête sera ouverte afin d'engager une poursuite judiciaire.
25. La brigade maritime de Gendarmerie et le Commissariat spécial de Police assureront, suivant leur organisation, la surveillance du respect des présentes dispositions avec la Capitainerie du port et le gestionnaire du terminal concerné.

1. Main measures taken by government (max. 2 lines of explanation for each measure)

CONFINEMENT : Lockdown was imposed by the Government of India on 25th March 2020 until 14th April 2020 but looking at the gravity of the outbreak, the Government extended it until 3rd May 2020. In between, the lockdown was relaxed from 20th April onwards to gear up business and industry and this relaxation resulted in mixed response and the period of the lockdown was further extended from 4th May up to 17th May 2020. In view of a whopping 2,76,583 confirmed Covid-19 positive cases and 7,745 fatalities in India, the Government has further extended the lockdown in containment zones till 30th June 2020.

NON ESSENTIAL BUSINESS' CLOSURE : Non-essential goods are still not allowed to move with the exception of raw material and intermediaries required in manufacturing units of drugs, pharmaceuticals and medical devices. This is applicable to all the 3 zones- red (worst affected), orange (less affected) and green (least affected) but the Government has decided to open all prohibited activities outside containment zones in a phased manner.

BORDERS' CLOSURE : Even the Lockdown 5.0 maintains closures of the district and state borders except for transport of essential goods and medical emergencies. International flights remain grounded except for air cargo and evacuation flights. International flights are expected to resume from 10th July if the situation improves. Only few domestic flights have started operating from 25th May under strict screening of passengers on their entry into airports. Seaports have been operating under force majeure that has limited its freedom.

OTHERS : In containment zones interstate borders are closed with restrictions imposed on movement of goods and people. However, in green and orange zones movement of goods and people was allowed from 1st June under strict condition of complying with necessary protocols of self-protection and social distancing.

2. Port's situation (max. 10 lines)

Seaports are still working under force majeure and despite graded relaxations in the lockdown, cargo volume at major Indian ports drops 22% during the first two months (April-May) of the ongoing fiscal to 92.82 million tonnes. Ports like Chennai, Cochin and Kamarajar saw their cargo volumes tumble more than 40%, while Kolkata and JNPT suffered a drop of over 30% during April-May. Kamarajar port saw its cargo handling decline 46% to 3.22 million tonnes in April-May, while Chennai port saw a massive 44.24% fall to 4.56 million tonnes. Cargo handling at Cochin port slipped 40.14% to 3.41 million tonnes, while the same at JNPT declined 33.13% to 8.02 million tonnes. Kolkata port registered a fall of 31.60% to 7.30 million tonnes. Retrospectively, all the 12 major Indian ports had handled 705 million tonnes of cargo in the last fiscal. Container trade was severely hit as it recorded a decline of 36.33% in terms of twenty foot equivalent unit followed by 35.94% fall in thermal coal. Rating agency ICRA says, "While general cargo throughput may witness 5.8% contraction for full year 2020-21, the container segment may drop 12-15%."

3. Inland transports' situation (max. 10 lines)

With huge exodus of truck drivers, porters and migrant workers to their homes ever since the imposition of lockdown on 25th March 2020, the transport industry has been facing untold difficulties in red zones. However, the relaxation in the lockdown from 20th April followed by the lockdown's third phase starting from 4th May 2020 eased transport of all goods in green zones allowing even non-essential goods to be transported under strict protocols of self-protection and social distancing. From 1st June, transport of goods and people was freed subject to compliance with necessary Covid-19 protocols outside containment zones but its effect has yet to be seen.

4. Airports' situation(max 5 lines)

All international flights will remain suspended till further notification until 10th July. Few domestic flights have started operating from 25th May 2020 to select destinations under strict screening and protective measures. It was expected that Indian airports would resume with 25-30 per cent capacity from mid-May onwards but by announcing the fourth extension in the lockdown on 18th May and fifth extension on 5th June, the Government contemplated on the continuing growth of the Covid-19 outbreak in the country; and to be on a safer side, started only domestic flights from 25th May under stringent protective measures while international flights remain grounded until 10th July as gathered from reliable sources.

1. Main measures taken by government (max. 2 lines of explanation for each measure)

CONFINEMENT : Curfew in Colombo and Gampaha districts will continue until further notice. In other districts Night Curfew(8pm-5am) will continue from Monday 11th May, until further notice (Presidential Media Division). Travelling to and from the districts of Colombo, Gampaha, Kalutara and Puttalam is completely prohibited for every citizen-PM

The District of Colombo where the main Port and our office is located continues to be under 24 hour curfew.

In all Districts including Colombo and Gampaha, despite the curfew being in force, people are allowed to attend their work places and resume duties. This would be facilitated under the following conditions :-

+All Employees attending work will have to carry their Work place Identity card/badge and a letter (hard copy or electronic version) confirming the requirement for his/her attending the work place. This will be a "curfew pass" restricted to commuting between work place and residence.

+Work to commence at 8.30 am and conclude at 2.30 pm at Government Offices.

+Work to commence at 10 am and conclude at 4 pm at Private Sector establishments.

+Staff numbers attending work to be restricted (1/3 attendance per day recommended) and rotated

NON ESSENTIAL BUSINESS' CLOSURE :Essential services are permitted to function. All other Offices have to work from home.

BORDERS' CLOSURE :No international flights to and from Sri Lanka is permitted.

OTHERS : The Government has suspended the Import of all non essential items other than Pharmaceuticals and Fuel.

2. Port's situation (max. 10 lines)

Port and Shipping are classified as essential services and continues to be functional.

Vessels are allowed to enter the Port on submission of a Health Declaration Form by the Master which should contain the health status of crew as well as the details of Ports visited within the last 14 days.

No delays in berthing and discharge/Loading of cargo.

Port was permitting the clearance of essential items without restriction and from 03rd of April (Friday) has allowed the clearance of all cargo. This has been in order to ease the congestion as well as to gear towards normalcy. However there are delays and obstacles to the smooth operations at this stage due to the following :

- Restrictions of movement due to curfew in force. Permits can be obtained for clearance of cargo but some workers may be faced with travel restrictions due to closure of public transport.
- Delays due to strict enforcement of social distancing. State has introduced on line approval for clearance of cargo, minimize contact.
- Limited availability of staff at Port and Customs.

Therefore as of now there is no restriction or suspension of clearance but delays due to practical reasons consequent to the preventive measures in place for the spread of COVID 19.

3. Inland transports' situation (max. 10 lines)

Transport is permitted on obtaining curfew permits. Generally limited to essential goods.

4. Airports' situation (max 5 lines)

No flights in to or out of the Country until further notice.

5. Any import cargo treatment/decontamination (max 5 lines)

NO

6. Possibilities of surveys

NO Sri Lanka Ports Authority has banned all surveyors from attending on board Vessels until further notice.

If and when requests for survey are received the following procedures are been adopted:

- Attempts are being/will be made to obtain curfew passes to attend to inspections. As surveys are not clearly classified as an essential service, the issuing of permits in this regard is not certain.
- When an inspection is not possible, Consignees would be instructed to take photographs, under the Surveyor's advice, and carry-out loss assessment and segregation of loss/damage , pending future inspection if required.
- Provide loss control advice to Consignee.

1. Main measures taken by government (max. 2 lines of explanation for each measure)

- CONFINEMENT** : The States of São Paulo and Rio de Janeiro start easing social isolation from this Wednesday, despite the growing number of cases of covid-19 across the country.
- NON ESSENTIAL BUSINESS' CLOSURE** : supermarket, fuel stations, drugstores, pet shops normal opening. The federal government expanded, by decree, the list of essential activities in the country - beauty salons, barber shops and gyms were included. Several State governments disagree with the measure and intend to keep these services inactive until the end of the social isolation measures.
- BORDERS' CLOSURE** : The country's land borders remain closed.
- OTHERS** : The Chamber of Deputies approved this Tuesday (9), the mandatory use of masks across the country for the duration of the coronavirus pandemic. The proposal now goes on to presidential sanction. It provides for a fine in cases of non-compliance and determines which governors or mayors must define and regulate the amount of the punishment.

2. Port's situation (max. 10 lines)

The Federal Government decided to maintain, for another 30 days, the restrictions for the entry of non-resident foreigners of all nationalities. The measure came into force last on May 22 and effectively extends the restrictions created in March, with the usual exceptions related to cargo transport and airline personal.

Also, the restriction continues to not apply to foreign professionals on mission serving an international organization; foreign employees accredited to the Brazilian Government; and spouse, partner, son, father or curator of a Brazilian whose entry is authorized by the Brazilian Government or holder of a National Migration Registry.

The disembarkation of crewmembers remains forbidden, unless it is for medical assistance or for connection to return to the country of origin, provided it authorized by the Ministry of Foreign Affairs (MRE) and accompanied by National Health Surveillance Agency (Anvisa) and the Federal Police.

For the first time, it has been expressly authorized the entry and permanence of foreign seafarers bearing an international seafarer's license issued under the terms of the ILO Convention, a reference to the Seafarers' Identity Documents Convention, 1958.

3. Inland transports' situation (max. 10 lines)

Some cities and states closing access roads, but federal government ordered cargo transportation must continue normally in order to not affect supply chain. International land borders closed.

4. Airports' situation (max 5 lines)

In order to meet the high demand for transporting tests performed in laboratories, due to the coronavirus pandemic, the National Civil Aviation Agency (ANAC) published Ordinance No. 880 / SPO, of 2020, which authorizes temporarily transporting Biological Substance, Category B (UN 3373), by all air taxi companies, governed by the Brazilian Civil Aviation Regulation No. 135. The measure is valid for 180 days.

5. Any import cargo treatment/decontamination (max 5 lines)

NO

6. Possibilities of surveys

1. Main measures taken by government (max. 2 lines of explanation for each measure)

CONFINEMENT : curfew from 22-05 hours for the entire country (12th week).

Several cities or districts of cities are under sanitary confinement. People living inside these areas may only leave their homes for essential tasks, like walking the dog, buying in a supermarket or pharmacy. A special permit needs to be applied for at Police Stations or online. Police and Military are controlling people inside these confined areas. Outside these areas, normal activities can be realized, yet, movie theaters, shopping malls are closed and events with more than 50 people are forbidden, even private events like marriages or birthday celebrations. Schools, Universities, etc. remain closed.

AREAS OF CONFINEMENT:

Chile is applying a sort of "strategic confinement" for the country. Some cities or districts of cities are under confinement. The province of Santiago and 6 surrounding districts are under strict quarantine since Friday, May 15th (4th week) and some districts of Santiago for much longer time. Unfortunately, a lot of people do not comply with Authorities, infringing the Law. To be effective, at least 60% of the population should stay home, but figures presented by the Government indicate that only 20-30% less movement was registered. Today (June 10th) Health Minister informed that the area of Valparaíso and Viña del Mar will be under lockdown as of this Friday, June 12th as well as additional districts of the greater Metropolitan Area of Santiago. Approx. 9M or half of the population is requested to stay at home.

NON ESSENTIAL BUSINESS' CLOSURE : Inside confinement areas

BORDERS' CLOSURE : only for persons, for cargo still open. Domestic flights are working normal.

2. Port's situation (max. 10 lines)

All ports remain open for cargo imports and exports. Cargo movements are down overall 8,23% in 1st Q. 2020, leading by Talcahuano Port (-21,1%). Valparaiso down (-12,64%), San Antonio (-6,8%).

3. Inland transports' situation (max. 10 lines)

All roads are open for transport, yet strict sanitary borders have been set in place around several cities like Valparaiso/Viña del Mar and San Antonio. National supply is working normal, no lack of food in supermarkets.

4. Airports' situation (max 5 lines)

Airports remain open for cargo transport and domestic passenger transport. Number of daily flights is down 90%

5. Any import cargo treatment/decontamination (max 5 lines)

Unknown, not that we know of.

6. Possibilities of surveys

YES Only under special circumstances.

7. Specific information (max 5 lines)

Actual Numbers: There are approx. 150.000 cases registered in total with 24.201 active cases. (Population: 18,7M). Death toll is 2.475 persons.
